Summary A01261

This amendment will update language in the act to allow the Department of Aging to participate in electronic fingerprinting. Currently, the Departments of Education, Welfare and Banking utilize electronic fingerprinting through the cogent system for FBI fingerprinting and background checks. Due to existing language, the Department of Aging requires that fingerprints be submitted through the state police with ink and fingerprint cards. This requirement has created additional delays in the hiring process as well as added expense when an individual is required to go through more than one system.
